## Internationally recognized Security Posture

NetSensor's security posture is internationally recognized by two of the largest and most prestigious risk rating companies in the world, SecurityScorecard and Mastercard RiskRecon. Both companies give NetSensor an “A” rating for cybersecurity posture.

### Perfect score

NetSensor joined the illustrious and select group of companies that achieved the so-called "Perfect Score", achieving the maximum score in the ranking for all evaluation criteria, both from SecurityScorecard and Mastercard RiskRecon.

### Who is SecurityScorecard?

SecurityScorecard is a global leader in the segment, with a prominent position in Gartner and Forrester, and is widely recognized for its comprehensive and rigorous assessment of the security practices of companies around the world. Its in-depth assessments include continuous vulnerability monitoring, cross-domain security ratings, and industry benchmarks.

Trusted by 98% of the Fortune 500, 70% of the Fortune 1000, 8 out of the top 10 largest insurance companies in the world and 9 out of the top 10 banking institutions, SecurityScorecard's credibility is widely respected in the cybersecurity landscape.

### Who is Mastercard RiskRecon

RiskRecon is a Mastercard product, present on Gartner, which operates in the same segment as SecurityScorecard, making a comprehensive and rigorous assessment of the security practices of companies around the world.

## Excellence in Cybersecurity - by SecurityScorecard

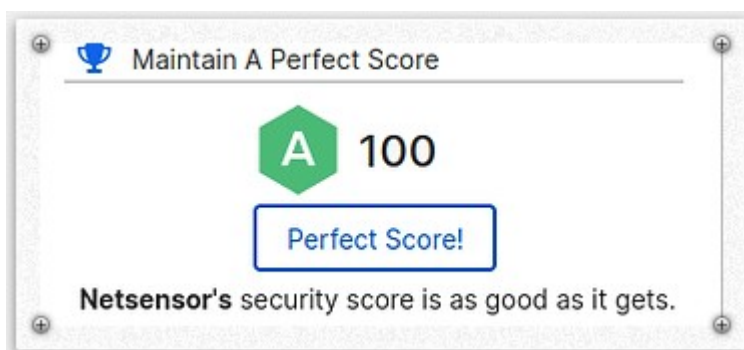

### "A" Cybersecurity rating

NetSensor has an "A" rating in cybersecurity, given by the prestigious North American risk rating company SecurityScorecard.

This achievement not only reflects NetSensor's competence in cybersecurity, but also highlights its dedication to protecting both its customers and its own structure.

### Perfect Score

In addition to recognition for our high security posture, NetSensor joined the illustrious and select group of companies that achieved the so-called "Perfect Score", achieving the maximum score in the ranking: 100/100. This group currently comprises less than 1% of companies evaluated by SecurityScorecard.

## Excellence in Cybersecurity - by RiskRecon

### "A" Cybersecurity rating with Perfect Score

NetSensor has an "A" rating in cybersecurity, given by Mastercard RiskRecon.

In addition to recognition for our high security posture, NetSensor joined the illustrious and select group of companies that achieved the maximum rating in all analysis criteria: 10/10.

Domain Ratings		
Domain	Rating	Issues
Software Patching	A 10	0
